

## Port of Corner Brook

Nestled at the mouth of the Humber River and framed by towering Blomidon and Long Range mountains, city convenience meets small-town hospitality at the port of Corner Brook.

Experiencing the beauty here begins long before you reach the port: cruising in through the Bay of Islands is its own sight to behold, with lush forests and traditional fishing communities scattered across either shore.

You'll find plenty of walking trails, lookouts, parks, and historic sites scattered throughout the city, with picturesque views at every turn.

### Fun For Everyone

- Take in a birds-eye view on one of eastern Canada's longest, tallest ziplines!
- Traverse all corners of the city through its integrated walking trails.
- Climb aboard a historic collection of rolling-stock and artifacts from the Newfoundland Railway.
- Soak in the views at Gros Morne National Park – one of five UNESCO World Heritage Sites in the province.
- Roam Captain Cook's National Historic Site and see for yourself where the famed explorer once adventured.
