

CRUISE VISION AWARD NOMINATION FORM

A Message from Cruise Newfoundland & Labrador

In 2022, the cruise industry focused on a safe restart with the province welcoming back cruise ships for the first time since 2019. With all the challenges facing the industry, it can only be considered a triumphant return - between May and October, 86 vessels brought over 60,000 tourists to eleven different ports. In 2023 during the same period the province welcomed 127 vessels and over 90,000 tourists.

All of this has been made possible by the tremendous work done across the province by our members – your unwavering commitments have been instrumental in putting the Newfoundland & Labrador cruise industry back on course.

As we work toward the start of the 2024 cruise season, it's this passion and vision behind our province's cruise tourism sector that will help reshape the future of cruising in this province and help drive economic growth for all of Newfoundland & Labrador.

Cruise Newfoundland and Labrador has the honour to present the Cruise Vision Award to an individual, group, or business that has demonstrated a commitment to the provincial cruise industry, while also contributing significantly to the growth of the industry in Newfoundland & Labrador. The award acknowledges our industry partners' exceptional endeavours and achievements.

The 2024 Cruise Vision Award will be presented at the annual Hospitality Newfoundland & Labrador Tourism Excellence Awards Gala, scheduled for February 22, 2024, in St. John's.

To our entire industry: thank you for your continued contributions to a successful cruise industry here in Newfoundland & Labrador. We're excited to work together over the coming months as we steer the industry forward.

Jennifer Crane, Chair
Cruise Newfoundland & Labrador

Erin Brennan, Managing Director
